PROFESSIONAL SUMMARY

Python Full Stack Developer with hands-on experience building and deploying database-driven web applications using Python, Django, React.js, JavaScript and SQL. Skilled in developing complete web platforms from database design to front-end delivery, including user authentication, OTP verification, payment integration and responsive UI. Proven track record of shipping and deploying live projects independently, with strong problem-solving ability and experience working in a collaborative development team.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: Django, React.js, Bootstrap 5, RESTful APIs, MVT Architecture

Databases: MySQL, SQLite

Tools & Platforms: Git, GitHub, VS Code, PyCharm, Postman, PythonAnywhere, Razorpay API

Concepts: User Authentication & Authorization, OTP Verification, Payment Gateway Integration, Responsive Web Design, REST API Development, Database Design

PROFESSIONAL EXPERIENCE

Python Full Stack Developer Intern | Luminar Technolab, Kochi, Kerala

- Develop full-stack web applications using Python, Django, React.js, JavaScript, REST APIs and SQL.
- Build functional, database-driven web applications as part of a collaborative development team.
- Design database schemas and write SQL queries to support application features.
- Test API endpoints using Postman and manage source code with Git and GitHub.

PROJECTS

GoFlip – Customer-to-Customer (C2C) Marketplace | Full-Stack

Live Link: https://goflip.pythonanywhere.com/

Technologies: Python, Django, JavaScript, HTML5, CSS3, Bootstrap 5, SQL

- Developed a C2C marketplace platform where users can register, log in and list products for sale.
- Implemented multiple product categories including Cars, Bikes, Mobiles, Electronics, Furniture, Fashion and Books.
- Implemented user authentication and OTP-based account verification.
- Deployed the application live on PythonAnywhere.

E-Commerce Web Application | Full-Stack

Technologies: Python, Django, SQL, HTML5, CSS3, Bootstrap 5, Razorpay API

- Developed a complete e-commerce web application from database design to front-end delivery.
- Implemented user authentication and authorization.
- Integrated order processing and payment functionality using the Razorpay API.
- Created responsive user interfaces for an improved user experience.
- Deployed the application live on PythonAnywhere.
